## WORK EXPERIENCE

---

### Software Support Assistant | Coffee Collection zones, Kiru Mathioya

**July 2025 – Present**

- Facilitated farmer data collection through updating data collection software in coffee collection centers.
- Validated and maintained daily entries to prevent duplication of farmer data

### Network and system intern | TechSource Point Westland Nairobi

**April 2025–July 2025**

- Deployed to support important IT infrastructure upgrade projects for the Ministry of Energy and Petroleum (Kawi)
- Helped with general cable management, trunking, and structural cabling.
- Cisco switch configuration and LAN/WAN performance optimization
- Arranged patch panels, spliced fiber optic cables, put racks together and set up server rooms
- Offered general network troubleshooting, diagnostics, and Ip addressing

### Data entry and collection | Mathioya constituency office, Muranga

**February 2025– March 2025**

## EDUCATION

---

### Muranga University of Technology | Information Communication Technology

**August 2022 – April 2025**

- Worked on various tech projects, including mobile application development, full-stack systems, and IT audits.
- Key courses: Java, system analysis and design, web development, computer repair, development, computer repair, and computer repair and electrical and electronics.

### Emobilis Technology Training Institute | Full-Stack Web Development

**October 2024– December 2024**

- Gained skills in Python, Git, GitHub, JavaScript, and bootstrap
- Integrated M-Pesa (Daraja API) into responsive web applications

- Collected and checked information from applicants for bursary while conducting fieldwork
- Entered, cleaned, and arranged 2000+ applicants' records
- Helped with the final report compilation and verification
